

May 25, 1976

To Whomever Opens the Time-Capsule:

I sincerely hope that the materials found in this time-capsule will give people of the present time a glimpse of what 1976, our nation's bicentennial year, was like.

It is hoped that the materials will be preserved for history

There were many teachers and students (grade 5-8) who put many hours in making this time-capsule possible. I know it was a rewarding experience for all and I hope it will be rewarding for those people who open this capsule in 2026.

Sincerely,
Gary Mestod 7-8
Darius Hayfield
Social Studies
Teachers.
